Welcome Message

We're delighted to welcome you to the world of Agricraft- a vibrant ecosystem rooted in agricultural excellence, sustainable living, and creative transformation.

At Agricraft, seasoned professionals from Soil Science to Electrical circuits, Landscape artistry to Rural tourism - Agricraft's team is a harmonious blend of agricultural experts, horticulturists, engineers, food technologists, and agrotourism pioneers. Together, we cultivate ideas and develop sustainable solutions that nourish both nature and the community.

Whether you're a farmer seeking guidance, a curious learner, a nature lover, or a visionary entrepreneur, Agricraft is here to connect you to authentic plant varieties, innovative landscaping, expert training, and immersive agro-tourism experiences.

At Agricraft, we don't just grow plants - we grow purpose, possibilities, and a greener tomorrow. Together, let's bridge the gap between people and the planet, and cultivate a future filled with growth, gratitude, and thriving environment.

Dr.Vaibhav Gupta

Vision

We envision Agricraft as a catalyst for agricultural transformation, where every plant tells a story of sustainability, growth, and hope. Our goal is to: Foster youth engagement in agriculture as a path of innovation and pride. Preserve and distribute true-type species of plants while promoting biodiversity.

Create green jobs and support rural economies through Agro-Tourism.

Offer immersive village life experiences that connect people back to nature.

Emerge as a trusted hub for agricultural learning, landscape design, and ecoconscious living.

Mission

At Agricraft, our mission is to cultivate a greener planet by inspiring India's youth and empowering farmers to embrace agriculture as a meaningful and sustainable career. We aim to build a bridge between people and the environment - offering authentic plant varieties at accessible prices, generating employment, and preserving the originality of our flora. Through education, innovation, and community-driven initiatives, we're committed to nurturing a culture that values the land and those who care for it.

Type of Gardens

Organic Veggies

We design, develop, and maintain organic vegetable gardens that provide fresh, chemical-free vegetables at homes, offices, resorts, and other spaces through sustainable and natural farming practices.

Flowers

We design, provide, and maintain beautiful flower gardens with seasonal and flowering plants, creating fresh, vibrant, and eco-friendly spaces for homes, offices, resorts and other locations.

Herbs

We design, develop and maintain herbal gardens with a variety of useful medicinal and aromatic plants, creating natural, healthy and refreshing green spaces for homes, offices, resorts and other locations.

Biophilic

We design and install biophilic interiors by integrating plants, natural elements and greenery into indoor spaces, creating healthier, refreshing and aesthetically pleasing environments for homes, offices, hotels and commercial spaces.
